- ✓ 30 Minutes of Monthly Updates
- ✓ Continuous Link Building Campaign
- ✓ Keyword Analysis
- ✓ Patient Web Portal Integration
- ✓ Free Monthly Traffic Reports via Email
- ✓ Upgrade To A Larger Site At Anytime
- ✓ Domain Redirection

### Why does my practice need a website?

If your answer is to promote the visibility of your practice with new patients in your local community, increase physician referrals, and improve efficiency - then MDS Medical's subscription website is a prudent, budget-conscious choice. MDS aims to provide a long-term technology solution that will drive new patients to your practice and provide better and safer care for your existing patients. Save time by putting your new patient forms on your website for patients to download and complete prior to their first visit.

### How does it work?

You choose from a variety of starting medical website shells. Our professional development team adds the colors, logo, images, and content that you provide to us. We customize your website and launch it within 2 weeks. It really is that easy!

### How do I get started?

As a special offer, present this flyer or reference code **ARAS400** to our medical website development team by calling 1-800-494-3188, Extension 102 or emailing [info@mdsmmedicalsoftware.com](mailto:info@mdsmmedicalsoftware.com). We will send you a website questionnaire within 24 hours.

## WHY CHOOSE MDS MEDICAL WEBSITES?

- Newest (CSS) technology. Over 80% of websites use legacy coding methods that search engines frown upon.
- 30 Minutes of monthly updates. Your site will always be updated and current.
- Search engine optimization over the life of your website. Crucial to the ongoing performance of your site.
- Easy to start - just fill out a questionnaire and provide us with your content and images. We do the rest!
- MDS has 20 years of technology experience in medical practices - we are trusted medical software vendor.
- Add more pages, a patient web portal, or other services at any time.
- Website design packages start at just \$499 and \$79 per month for the 5 page site, or \$899 and \$99 per month for the 10 page site.
