

McKesson's Transaction Solutions Hub takes an integrated approach to medical electronic claims processing to offer comprehensive financial and administrative transaction management. McKesson improves physician practice cash flow with services that enhance

Accelerate Your Revenue Stream

Batch Processing Solutions and Real-Time Patient Verification Services are just a few of the tools available through the McKesson Relayhealth Clearinghouse. McKesson's Clearinghouse is a Transaction Solutions Hub that connects more than 40,000 submitter entities with more than 1,350 payor plans. It is one of the only few to earn a full accreditation by the Electronic Healthcare Network Accreditation Commission (EHNAC). It is SCP and CMM-certified and HIPAA compliant. The McKesson Transaction Solutions Hub is one of the largest clearinghouses in the United States and processes over 100 million claims annually, with a total value of \$24 billion.

Personal, Expert Clearinghouse Support

MDS Medical Software is an authorized representative for McKesson. You will deal directly with our expert staff through the setup and ongoing support of your practice. As part of our services, we offer unlimited client support for troubleshooting and resolving claims issues. We proactively communicate updates to billing requirements, codes, or policies that may affect your claims submission.
